Overview

## A complete health education solution for Care Management

Empower care managers with resources integrated directly into Medecision's digital care management platform, Aerial<sup>™</sup>

## Maximize care manager efficiency

With the Healthwise® solution integrated directly into the Aerial<sup>™</sup> platform, it enables care teams to quickly conduct triage, develop care plans, and prescribe education, all within their workflow. Through a single application, care managers can access health content based on each member's demographics and diagnoses, select and deliver follow-up education through an electronic PDF, and track consumption of education materials.

## Tailor interventions for real change

Behavior Change Navigator, embedded into Aerial™, uses validated health behavior change techniques to maximize the impact of your interventions. Behavior Change Navigator, accessible within the Healthwise (R) Coach application in Aerial, can quickly identify a person's behavior change stage and then receive coaching tips and health education matched to their stage and condition.

## Within the Aerial<sup>™</sup> Platform You Can

**Overview** 

Healthwise® Coach	Healthwise Coach is the app that care managers use within the Aerial™ platform to access health education and share it with members. It includes:
	<ul> <li>Recommended education based on a person's demographics and diagnoses.</li> </ul>
	<ul> <li>Prebuilt and customizable disease management interventions that support accreditation standards.</li> </ul>
Healthwise <sup>®</sup> Communicate	Healthwise Communicate is an online tool that enables convenient access to health education. It provides:
	<ul> <li>A pathway to viewing their education that members can access anytime, on any device.</li> </ul>
	<ul> <li>Reporting on members' activity and engagement with the education they receive.</li> </ul>
Healthwise <sup>®</sup> Behavior Change	Healthwise Behavior Change Navigator maximizes the impact of your interventions. It includes:
Healthwise® Behavior Change Navigator	
Behavior Change	<ul> <li>your interventions. It includes:</li> <li>A brief assessment pinpointing a person's behavior change stage for given condition at any moment.</li> <li>Tailored coaching tips to help members sustain healthy habits.</li> </ul>
Behavior Change	<ul> <li>your interventions. It includes:</li> <li>A brief assessment pinpointing a person's behavior change stage for given condition at any moment.</li> </ul>
Behavior Change	<ul> <li>your interventions. It includes:</li> <li>A brief assessment pinpointing a person's behavior change stage for given condition at any moment.</li> <li>Tailored coaching tips to help members sustain healthy habits.</li> </ul>
